

CLAIM AMENDMENTS

This list of claims will replace all prior versions and listings of claims in the application.

1. (Currently Amended) A fuel cell system comprising:
a fuel cell stack, said fuel cell stack receiving a cathode input gas and a hydrogen anode input gas, said fuel cell stack exhausting a cathode exhaust gas on a cathode exhaust gas line and an anode exhaust gas on an anode exhaust gas line;
a purge valve coupled to the anode exhaust gas line for selectively purging the anode exhaust gas; and
an accumulator coupled to the anode exhaust gas line, said accumulator accumulating the purged anode exhaust gas from the purge valve[.];
and
a bleed valve for selectively bleeding the anode exhaust gas accumulated in the accumulator, wherein the bled anode exhaust gas from the bleed valve is combined with the cathode exhaust gas in the cathode exhaust gas line.

2. (Cancelled)

3. (Currently Amended) The system according to claim [[2]] 1 wherein the bleed valve bleeds the anode exhaust gas from the anode exhaust gas line at a slower rate than the purge valve purges the anode exhaust gas.

4. (Cancelled)

5. (Currently Amended) The system according to claim [[4]] 1 wherein the combined anode and cathode exhaust gas is exhausted to the environment.

6. (Cancelled)

7. (Cancelled)

8. (Currently Amended) The system according to claim [[2]] 1 wherein the bleed valve is a spring-biased, solenoid controlled valve.

9. (Currently Amended) The system according to claim [[2]] 1 wherein the bleed valve is at least one orifice.

10. (Original) The system according to claim 1 wherein the purge valve is a spring-biased, solenoid controlled valve.
